---

Full stack developer with skills in time management, problem solving and teamwork acquired during my previous experience as a driver and stocker. As a full stack developer, I have worked on web and mobile development projects using a wide range of technologies. I have experience creating e-commerce applications and implementing online payments. I am passionate about learning new technologies and programming languages to create quality and efficient applications. My goal is to continue to improve as a developer and bring my unique and valuable approach to any company's team.
